

What is the American Public Power Association?

We're the voice of not-for-profit, community-owned utilities that power 2,000 towns and cities nationwide. We represent public power before the federal government to protect the interests of the more than 49 million customers that public power utilities serve and the 93,000 people they employ. Our association advocates and advises on electricity policy, technology, trends, training, and operations. Our members strengthen their communities by providing superior service, engaging citizens, and instilling pride in community-owned power.

Why should my company become a member?

To increase sales and revenue, you need to know the right people. As an Association member, we'll connect you with decision-makers at community-owned utilities that:

\$58 billion

Earn \$58 billion in revenue annually

Early Adopters

Can adopt new programs and technologies with speed

49 • 49 • 5

Provide electricity to 49 million customers in 49 states and 5 U.S. territories

Diverse Fuel Mix

Depend on a mix of fuels — natural gas, coal, nuclear, solar, wind, etc.

Diverse Customers

Serve a diverse customer base – between 100 and 1.5 million customers

What benefits will I receive?

We offer two levels of membership — Elite Corporate Associate and Corporate Associate — designed to fit your budget and needs. Membership extends to all your employees, so everyone can access Association benefits and services.

Elite Corporate Associate

\$10,000 annually; \$6,000 annually if you're a small business under federal Small Business Administration guidelines

Corporate Associate

\$3,250 annually; \$1,625 annually you're a small business under federal Small Business Administration guidelines
