

CYBER FLORIDA

at the **UNIVERSITY OF SOUTH FLORIDA**

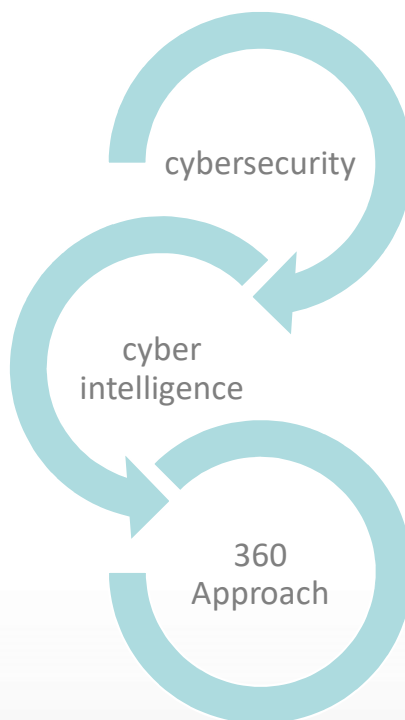

cybersecurity + cyber intelligence = 360 Approach

Network-Focused: Reactive, additive, perimeter-centric approach

Cybersecurity:

- Intrusion detection
- Firewalls
- Antivirus
- Event response
- SIEM
- Anti-phishing
- Einstein/HBSS
- Forensics

External-Focused: Continuous global situational awareness, intrusion prevention

Cyber Intelligence:

- Data collection
- Situational awareness
A big-picture understanding of what's happening across the global network
- Vulnerability warnings
Indications of potential threat or vulnerability
- All-source analysis
Fusion of all available data for actionable intelligence

a team **SPORT**

U.S. interagency threat-sharing roles:

- DHS
- DOE
- FBI & Local Infraguard
- DOS
- Fusion Centers
- Info/Intel Sharing
- Cyber Intel
- ISACs Law Enforcement

**CYBER

public/private **PARTNERSHIPS**

Cybersecurity demands new approaches

PUBLIC

Intelligence Community

Department of Defense

Other Federal Government

Local and State

PRIVATE

Banking and Finance

Electronic Retail

Compliance

Technology Manufacturers
and Service Providers

what **CAN WE DO?**

- **Prioritize what needs protecting.** *Intellectual property, customer/employee, financial data. Keep IP offline or encrypt it.*
- **Stay updated.** *Enable automatic updates and security patches, use strong passwords, and multifactor authentication*
- **Stay informed.** *Join your industry's Information Sharing and Analysis Center (ISAC) to stay informed about threats specific to your industry.*
- **Be an active consumer.** *Demand service providers and suppliers maintain established cybersecurity protocols.*
- **Connect with Infragard.org and the Cybersecurity and Infrastructure Security Agency (CISA).**

EDUCATION

One of Cyber Florida's main purposes as established by the Florida Legislature is to work with the 12 SUS institutions, acting "as a cooperative facilitator of state business and higher education communities to share cybersecurity knowledge, resources, and training."

Certificate Programs

- 8 Undergraduate
- 9 Graduate

Ph.D. Programs

- 3 SUS

Graduate Programs

- 23 SUS

Undergrad Programs

- 15 SUS

RESEARCH

Major Areas of Research

- Cyber Mission Assurance
- Cyber-resilience
- Software-defined Networking
- Securing Cloud Infrastructures
- Security Tools: focus on machine learning
- Defensive Cyber
- Improving the Discovery and Retrieval of Relevant Knowledge/Intelligence Products
- Medical Device Security Insider Threat in the Cyberdomain
- Securing the Internet of Things

Seed Award

- 2015: \$500,000 Awarded
- 2016: \$500,000 Awarded
- 2017: \$600,000 Awarded
- 2018: \$721,000 Awarded

Capacity

- 2017: \$720,000 Awarded
- 2018: \$734,000 Awarded

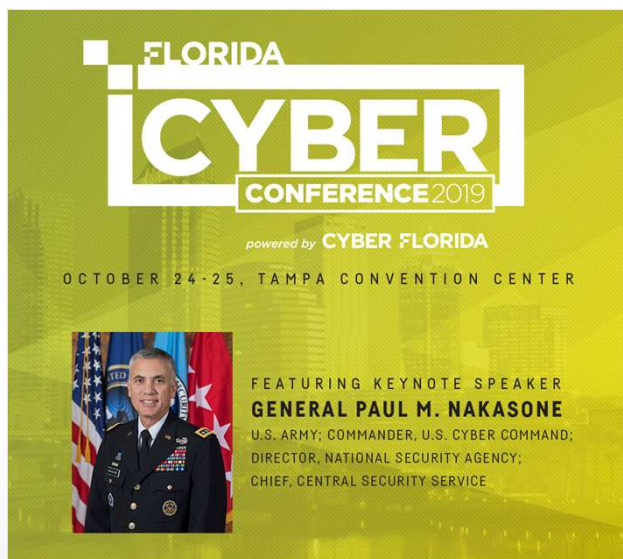

OUTREACH

Annual Conference

- Fourth Annual Conference: **950+ registered attendees**
- Fifth Annual Conference: **1,100+ registered attendees**

Research Symposium

- Cybersecurity researchers from academia and industry from across the state of Florida
- 200+ attendees

Presentations & Sponsored Events

2016: 46 events, 3,900+ attendees

2017: 27 events, 1,900+ attendees

2018: 21 events, 8,420+ attendees
