Dear Speaker Pelosi and Minority Leader McCarthy,

As you work to craft another recovery package to help Americans cope with the consequences of the COVID-19 pandemic, we urgently request that you provide robust supplemental funding that reflects the increased need for the Low Income Home Energy Assistance Program (LIHEAP). The LIHEAP program is well-positioned to quickly respond to, and support the needs of, millions of American households affected by the COVID-19 pandemic who are struggling to heat their homes this winter.

State energy officials have reported that they are ready to move additional LIHEAP funds quickly and have identified a need for an additional $10 billion to serve 11 million families, including newly-eligible households. Across the nation, utilities are reporting significant increases in the number of families falling behind on their utility bills. The National Energy Assistance Directors’ Association estimates that 15 to 20 percent of residential customers are at least 60 days behind on their electric and natural gas bills.

LIHEAP assistance is an indispensable lifeline, helping to ensure that recipients do not have to choose between paying their energy bills and affording other necessities like food and medicine. Yet the annual funding for LIHEAP is only able to provide benefits to approximately one in six eligible households. We appreciate the $900 million included in the Coronavirus Aid, Relief, and Economic Security Act for LIHEAP, but those funds are now fully obligated and additional funding is necessary to help the newly unemployed with their growing bills.

Thank you for your consideration of our request, and we look forward to working with you to support these important programs in this time of crisis.

Sincerely,

PETER WELCH  
Member of Congress

JAMES P. MCGOVERN  
Member of Congress
Low Income Home Energy Assistance Program, COVID-19 Supplemental Funding
