

APPA Resources of the Week

MARCH 23 – MARCH 27, 2020

Welcome to “APPA Resources of the Week.” Our goal with this piece is to deliver to our members a concise package of tools and information to help you better serve your communities. In the coming weeks, it is almost certain that resources dedicated to the COVID-19 response will dominate this digest, but our vision is to expand into all areas of the public power space.

We encourage feedback so that we can consistently deliver a quality product. Reach out with your feedback to Info@PublicPower.org.

Top Resources

[Electricity Subsector Coordinating Council \(ESCC\) COVID-19 Resource Guide for the electric power industry](#) – APPA collaborated with industry partners to create this living guide, which aims to guide decision-making in response to the COVID-19 global health emergency.

[Cybersecurity Resources During COVID-19 Response](#) – During the pandemic response, don’t forget to keep a watchful eye on cybersecurity. APPA has resources to help.

[US Dept. of Energy COVID-19 Energy Sector Response Efforts and FAQs](#) – this document is a compilation of COVID-19 resources directed toward the energy sector.
