Why PublicPowerX?

Hosting a PublicPowerX webinar is a great way to position your company as a knowledge expert, grow brand recognition, and generate leads. As a host, you choose the topic, and, we'll market the webinar extensively to your target audience at our 1,500 member utilities.

Webinars must be educational and run 60 minutes (45-minute presentation and 15-minute Q&A).

What is the American Public Power Association?

We're the voice of not-for-profit, community-owned utilities that power 2,000 towns and cities nationwide. We represent public power before the federal government to protect the interests of the more than 49 million customers that public power utilities serve and the 96,000 people they employ. Our association

advocates and advises on electricity policy, technology, trends, training, and operations. Our members strengthen their communities by providing superior service, engaging citizens, and instilling pride in community-owned power.
