

About the Final Summary Report

To help applicants fill out certain pieces of the RP₃ application, RP₃ staff creates a customized report for each applying utility. The Final Summary Report lists the different ways that your utility can receive credit in the RP₃ application process through its involvement with the American Public Power Association.

The customized report is uploaded directly to the application and can be found in the attachment section of the Utility Demographics question (0.0.0).

We've outlined below the different questions this report may help you answer, and highlighted where you can find them in the sample report on the next page:

Section	Question	Final Summary Report
Reliability	I.A.1 – Tracking Reliability Data	Confirms if you have an eReliability Tracker subscription
Reliability	I.B.2 – Reliability Benchmarking	Tells you what years you participated in the Reliability Survey – most recently distributed in 2015
Reliability	I.C.1 – Mutual Aid	Indicates if you have a Mutual Aid Agreement on file with APPA
Safety	II.A.1 – Safety Manual	Confirms if you have purchased the APPA Safety Manual and which edition
Safety	II.C.1 - Safety Index Benchmarking	Indicates what years you participated in the Safety Awards of Excellence
Workforce Development	III.C.2 – Networking	Lists what meetings have been attended and by whom
System Improvement	IV. A. 1 – Research and Development	Lists if you are a member of DEED
