LEARNING OUTCOMES

EDUCATION INSTITUTE

Public Utility Accounting

Recommended CEUs 1.3/PDHs 13/CPEs 15
Field of Study: Accounting

Upon completion of this course, participants will be able to successfully:

1. Explain the structure and usage of the Code of Federal Regulations and the FERC Uniform System of Accounts.
2. Define the accountant's role as a service provider to internal and external customers and describe how those customers use the data provided.
3. Identify the sources of GAAP and where to research questions.
4. Recognize the key elements of a plant accounting system.
5. Differentiate between capital vs. operating vs. maintenance expenses.
6. Discern between regulatory and unregulated accounting procedures.
7. Define the key concepts, approaches and mechanisms associated with utility rate design and other funding methods.
